Enoch Williams Again Heads Hospital Board

A Hollingshead Appointed Vice-Chairman; Municipal Hospital Board Remains Unchanged Following Municipal Elections

Enoch Williams, mayor of the town of Blairmore, was once again elected to the office of chairman of the Canadian Pass Mine Hospital Board at its first meeting Friday following the municipal elections held earlier in the month. Chairman Williams was first elected chairman of the provisional board in April, 1944, and has been appointed chairman of the board each year since.

A Hollingshead, of Hillcrest, was re-appointed vice-chairman while A. Balloch of Coleman was also appointed honorary treasurer and J. V. McDougall, of Blairmore, as auditor.

Work on the construction of the hospital was discontinued during the winter months and was expected to start work on February 1 but this particular month proved the coldest of the winter and March to date has failed to show abatement of the severe cold. As a result the construction is still halted. It is anticipated that construction will advance quickly once weather conditions become more favorable. December 1 is now mentioned as the probable month when the hospital should be practically ready for occupancy.

HANDLING DISEASE

By merely picking up a glass, a plate, a spoon, or even a book, if these objects have been handled by someone with a contagious complaint, it is possible to pick up a disease. Common colds are often transmitted that way, according to medical information.

Careful washing of the hands before eating and use of thoroughly clean towels at all times, is urged, and authorities remind Canadians to keep a safe distance from anyone whose coughing and sneezing indicates that they have a cold already.

Serve the Church that the Church May Serve You.

CENTRAL UNITED CHURCH

BLAIRMORE

Rev. James McElveen, Minister

Services Sunday next:

11.00 a.m. Senior school.
2.00 p.m. Junior school.

Services at 7.30 p.m. every Sunday.

COWLEY UNITED CHURCH:

Services alternate Sunday mornings at 11 o'clock.

Revolutionary Nursing School Financed by Red Cross

(By Margaret Newcombe)

A revolution is in progress in Windsor, Ontario. Hub of the revolution is a grey stone, old-fashioned house on a quiet, tree-lined street. Its instigators are the 24,000 members of the Canadian Nurses' Association, backed by the Canadian Red Cross.

Its object is to provide more nurses for Canada's rapidly expanding hospital work. Cause of the revolution is the growing dissatisfaction of the public and nurses with the present hospital training system: Its shock troops are 13 young girls from all parts of Canada who began, in January, the first course in the independent Demonstration School of Nursing. The 150-bed, municipally-owned Metropolitan Hospital is its practice ground.

This independently-operated nursing school is the first new step in a long time. The system of nursing education in Canada has remained essentially unchanged for nearly 100 years," says Miss Nettie Fidler, director, who with the students, lives in the old house that has been transformed into a modestly furnished, comfortable home and educational classrooms.

"Red Cross is financing this experiment for four years, as it has pioneered in the past by establishing University courses for public health nursing, because of its vital interest in the health and welfare of Canadian citizens. "Shortage of adequate nursing care is disturbing hospitals across the country. Trained nurses are fleeing into public health service, where hours are more normal; student nurses, unhappy in hospital schools, are loaded with extra work, drop out of their courses. The direct cause of the trouble, we believe, is having the nursing school in the hospital. The nursing school must be disengaged from its present confusion with the hospital's employed nursing service."

The Association feels nurses should be allowed to concentrate on nursing, students on learning and that nursing staff should be employed by the hospital. Under the new scheme, the hospital pays the school for what service student nurses give it in the course of their practice. The school not be the hospital, has complete charge of the hospital, has complete charge of the course of study and the hours of work.

Students in the new school, that puts nursing on the same professional training basis as law or medicine, have an eight hour day, four or five being spent in actual nursing practice, three or four hours in classes and study. There is more time to learn, more energy to study, more leisure hours, more incentive to complete the course. By this concentration of work, the Nurses' Association hopes to cut the usual three years of training down to 25 months and to attract more young women to the nursing profession.

The school is still in an experimental stage but world-wide attention is focused on it. Four years from now, when three classes have been graduated and the student-body increased, the Association will be able to evaluate the results. The revolution that is in progress in Windsor today may soon change the future of nursing the world over.

Wife: "When is that fortune teller downstairs going to pay his rent?"

Landlord: "I don't know."

Wife: "Didn't you ask him?"

Landlord: "Sure, but he said it would cost me a dollar to find out."

He: "Did the doctor see if your leg was alright?"

She: "I'll say! He had me limp before I left his office."

Dave Young Leaves For New Position

On Sunday evening, Feb. 29, 1948, the entire official staff of the Hillcrest Mohawk Collieries, Limited, Bellview, gathered in the dining hall of the Turtle Mountain Playgrounds to bid farewell to D. B. Young, who will leave the Pass in March to act as general manager of Cadomin Collieries, Ltd., at Cadomin, Alberta. The mining man is well known in the Lethbridge district as he operated Shanghassine mine before going to the Pass.

Following the sumptuous turkey dinner and with Henry Miller acting as toastmaster and master of ceremonies, a most delightful evening of informal entertainment was enjoyed by the friendly mixed gathering. In glowing and sincere terms, Mr. Miller extolled the accomplishments which the guest of honor had shown over the years while acting as general superintendent of the Hillcrest Mohawk Collieries, Ltd., in Bellview.

Employing realistic word pictures, the speaker recounted the planned and orderly manner in which the mineable and flourishing mining company has been nurtured by the outstanding mining skill, remarkable judgement and boundless energy of its departing general superintendent, Mr. Young. The financially ill and production-lame little "goopher hole" of 1939 certainly could not have been brought to its present state of robust good health by a man of less vision than "Dave" Young to whom the directors of the company had entrusted the execution of their carefully-made long term bidding him farewell. Mr. Miller presented Mr. Young with an unusual fine gold watch and chain taste fully engraved to commemorate the occasion, on behalf of the official staff of the company.

In conclusion, and before regretfully bidding him farewell, Mr. Miller presented Mr. Young with an unusual fine gold watch and chain taste fully engraved to commemorate the occasion, on behalf of the official staff of the company.

Mr. Young responded to the address, given on March 15 1948, succeeding J. H. Young, who has retired due to ill which he would treasure through all health. —Lethbridge Herald.

COWLEY HAPPENINGS

Wm. Cochran spent a few days visiting friends in Calgary this week. Joe Diamond returned home from Pincher Creek where he was an inmate in St. Vincent's hospital for several days.

Mrs. M. Brockwell has returned home following a visit of a few weeks with her sister and brother-in-law, Mr. and Mrs. Wiltz, Fortier in Calgary.

Mr. and Mrs. H. A. Rennie and their two small daughters, Heather and Kathleen, have recently returned to Canada since spending a few years in Aberdeen, Scotland, and are now visiting at the home of Mrs. Rennie's sister and brother-in-law, Mr. and Mrs. Lawrence Bent, here.

Mr. and Mrs. Harry Gilroy, of Macleod have returned home following a visit with their daughter and son-in-law, Mr. and Mrs. Joe Jordan, here.

A good plan has a place for everybody.

His days and emphasizing the fact that only with the fine and constant cooperation of all the officials had he been able to so effectively carry out his work at the "Mohawk" during the past years.

Mrs. Young was presented with a bouquet of roses and carnations by Mrs. Miller on behalf of those present, and this was accompanied by best wishes for the future good health, happiness and success of the popular couple who will be so keenly missed in social circles.

Mrs. Young very graciously spoke in appreciation of the beautiful bouquet, and, obviously deeply touched, expressed her regrets at leaving such a warm circle of friends.

P. J. Harquail, managing director of the Hillcrest Mohawk Collieries Limited, spoke glowingly of his own and the appreciation of the other directors for the valuable and faithful service rendered by Mr. Young at all times. On behalf of the board of directors, Mr. Harquail presented Mr. Young with a fine Gissel Oil painting and expressing his regrets at Mr. Young's departure, he wished him every success and happiness.

Brief farewell addresses were heard. The company had always been from N. F. Wm. Picard, purchasing agent, Mr. Miller declared, of Dave's agent, Roy Upton, accountant, J. Credible list of mining degrees certificates of merit and engineering master fellowships.

In conclusion, and before regretfully bidding him farewell, Mr. Miller

presented Mr. Young with an unusual fine gold watch and chain taste fully engraved to commemorate the occasion, on behalf of the official staff of the company.

Mr. Young is to assume his new position of general manager at Cadomin.

OUR WESTERN TOWNS

ST. WALBURG
SASKATCHEWAN

Located in One of Best Mixed Farming Districts of Province

ALEC VINGE

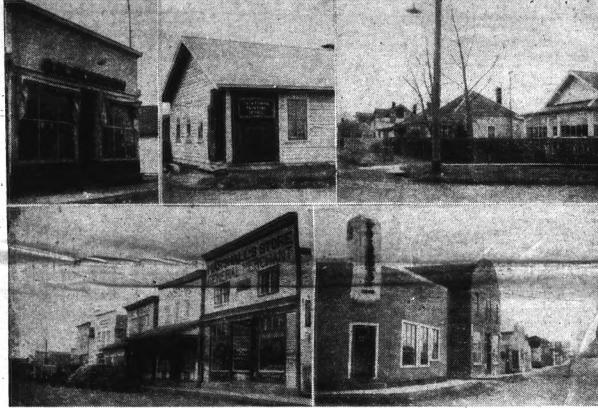

Editor of The St. Walburg Enterprise
"The Enterprise has been published for fifteen years, being established in 1928 by Mr. Vinge, the owner and publisher, and covers the Paradise Red Cross and Bright Sand districts. Editor Vinge learned his trade in Minneapolis, Minn., came to Canada in 1912 and worked on several Saskatchewan papers before moving to St. Walburg. He saw five years service in the Canadian Forces in World War I, and is a past president of the Canadian Legion."

ST. WALBURG, lying in one of the best mixed farming districts in Northwestern Saskatchewan, was founded in 1921 when the Jackfish line of the Canadian Northern Railway was extended to a point 77 miles northwest from North Battleford. St. Walburg is still at the end of the steel.

With a population of over 500, and with over 1,000 families placed in the village as well equipped to supply the Northland with their needs. There is more freight unloaded at St. Walburg than all the other towns from North Battleford to the end of steel.

The territory around St. Walburg is well suited for mixed farming. The soil as a rule is of a black loam and the district is known as a sure crop district. It is an ideal district for raising stock, too, as there is plenty of feed available and good afford protection for the winter.

St. Walburg is located in the centre of well known summer resort lakes. Such lakes as Bright Sand, Pech and Loon Lake are known all over Saskatchewan. Vacations are a great attraction to the tourists. Cold Lake, famous for its trout can be reached from here easily, and many tourists come up here every year for their holidays and spend their time in these beautiful surroundings. The lakes in this district afford good fishing. Game, both feathered and fur, can be found in abundance within easy

The enterprising Town of St. Walburg located in northwestern Saskatchewan boasts of up-to-date businesses and residential homes, as above pictures show. Upper left and bottom pictures show parts of Main Street: Top centre, The Enterprise office, and upper right showing a part of the residential section.

Take

driving distance of St. Walburg. The provincial government is establishing a new hospital there.

A two sheet curling rink and a full size skating rink takes care of the winter sports and a well equipped sports ground is well patronized in the summer time. Golf is also a popular pastime in the village.

St. Walburg has five department garages, three large department stores, one grocery and one meat and grocery, one machine shop and three cabinet and woodwork shops, two cafes and two hotels, two furniture stores, one hardware store, one law office, one real estate agent, one repair shop, two real estate and insurance offices and one insurance office, one hardware store, tailor, dry cleaner, two doctors, one dentist, one lawyer, one locksmith, one painter, one auto repairman, one moving picture theatre, bank, liquor store, lumber yard, radio repair shop, two licensed electricians, funeral parlor, two auctioneering firms, three elevators, pool hall and bowling alley, beauty parlor, hairdressing shop, six implement dealers, seven car dealers, one creamery, two dry lines, egg grading station, bakery, natural resources office, R.C.M.P. barracks, two livery stables, three oil sheds and tanks, three coal dealers, telephone exchange, two jewellery stores and drug stores.

Two schools, public and separate

take care of the education of the young people, seven teachers are engaged in this work. A new school will be built next year.

Three churches are represented in the village, Catholic, United and Lutheran.

A big building boom has taken place in St. Walburg, over 30 buildings have been completed or still under construction at the present time. A live board of trade meets

Western Briefs

EDMONTON.—Oil produced in Alberta during 1947 was worth a record \$17,000,000, it was estimated recently as it was revealed last year's production totalled 5,809,283 barrels, a decrease of 329,249 barrels from the 1946 production total.

SWEET CURRENT.—The matter of banning the type of radio station now provided in most farms and summer homes of that nature came in for discussion at a recent session of the Sweet Current ministerial association. Much of the present type of entertainment is unsuitable members of the clergy contend, and tabled the matter in order to investigate it more fully.

WINNIPEG.—Manitoba suffered fire damage to the value of 74,000 dollars on its forest in 1947, with the average annual loss in the 23 years up to 1946 ran to 30,100 acres, Robson Black, president of the Canadian Forestry Association, said at a Winnipeg Canadian Club luncheon.

CARMAN, Man.—Elie Pierre Major ate a piece of angel cake and played a game of checkers recently and counted it a happy 106th birthday. The cake had been baked for the man who is one of Manitoba's oldest residents, not the oldest—by Mrs. Gladys Gilhuly, a neighbor. Each year since 1944 she has made him an angel cake, and he has never failed to eat a piece of it.

EDMONTON.—It's a big job to dismantle the Whitehorse refinery being moved to the oil company site just east of here. The 74-foot processing tower, weighing 76 tons, has been lowered and is the heaviest single unit to be shipped.

OUR COMPLETE SHORT STORY

THE BEAUTY AND HUNCH

By EDWARD EARL LEE

HUNCH MORANO had been able to do just enough watchfulness, previous to this morning, to raise an alarm. Now, after hearing her proposition, he ceased rummaging the bureau drawer and focused full attention upon her, straightened up. That is, thought Marilyn Brandwynne, assumed erect posture again, his broad-shouldered body would permit.

She noticed rat-like eyes mirror in decision. To the scrutiny he subjected her, she presented the face that admires complimented as being prettier as a doll's, and which she hoped now might be just as impersonal.

"Hunch," Hunch commented, mentally. "More than once I've been in hospital cases by this time. Hunch had ascended her quarters in this resident apartment hotel and effected a stealthy entrance. Warned to remain silent, the woman had closed the book she had been reading and stepped him through untroubled eyes.

However, that emotionless attitude disappeared when Hunch noticed the diamond necklace he had noticed her wearing when she had left a restaurant and the reason for his trailing her. It was then that she removed the necklace and laid it on the square.

"It was sure you were on the square," Hunch said. "It's proof. Open the second drawer. Find the false back. That's it. Press it and...Oh, you have it."

Hunch's bony fingers fondled the necklace as he glowed: "Some haulin'!"

"I'll make a deal with you. My husband gave me that necklace on our second anniversary. A week later, he died. I cherish it."

Marilyn opened a large pocketbook on the table and let tumble out a roll of currency.

"Five hundred dollars," she said in a bargaining tone as she replaced her purse atop the book just under the telephone cradle. "It's all yours, if you leave the necklace."

Hunch scratched his head with graying fingers, eyes narrowing speculatively as he said: "Make it a grand."

"No! That necklace is too hot for you or anyone else to dispose of whole. Broken up, after the fence got it, his wife would be lucky to obtain five hundred dollars. After you leave, I'll furnish the police with your description. Two hundred dollars will cover you far enough to escape their dragnet."

Hunch, surprised by her words, attempted to regard the upper hand. He endeavored to straighten his shoulders; to force a harshness into his voice, saying: "It will, I know you!"

Acutely aware her life might depend upon this answer, Marilyn forced her speech to remain firm, replying: "You're a sneak-thief, not a murderer; only breathing she waited. Her blue eyes contemptuously returned his glare. One tense moment thus, and the bluster in Hunch's eyes waned, despite all his efforts to the contrary. He glanced downward, saying:

"Okay. Gimme the cash." "That's what you think!"

Hunch whirled in the direction of that third voice. His eyes bulged as they took in the sight of the hulking man dressed in blue serge and whose right hand held a service pistol on a level with his stomach.

"All right, pink, turn around!"

CHAMPION at a dairy judging competition held last week recently was Alice Bruce, Didsbury; is shown receiving her cup from the hands of D. H. McCallum, provincial dairy commissioner.

SINGAPORE WILL PLAY
ROLE OF FORWARD BASE

DR. HUGH LLOYD, British air commander-in-chief in the Far East, said on his arrival here recently.

Sir Hugh said Singapore is the most stable point in the whole of the East.

Before World War II, about 40 per cent. of United States exports went to the British Empire, says a Twentieth Century Fund report.

Scientific medical instruments are being manufactured in Singapore with the result that the Government promotes as early as possible the introduction of irrigation, smearing irrigation, rapid dry Apparatus, etc.

Dr. Hugh said Singapore is the most stable point in the whole of the East.

Blairmore, Alta., Fri. March 12, 1948

Foreign Exchange

Ottawa, March 8th, 1948. Attemp-
ting to take unauthorized currency out
of Canada cost one Windsor, Ont.
resident \$2,000 in court fines, accord-
ing to the February enforcement re-
port of the Foreign Exchange Control
Board, and similar infractions of
the Board's regulations brought fines vary-
ing from \$150 to \$1,000 and costs to
others. The Windsor man, on being
searched, was found to be carrying
\$12,005 in Canadian currency, con-
cealed in two envelopes beneath his
shirt. He was given the option of serv-
ing six months in jail, but paid the
\$2,000 fine immediately.

The seriousness of attempting to
deal in foreign exchange through any
but authorized dealers was emphasized
in a fine of \$1,000 and costs imposed
on another man in the February line
up of prosecutions. A resident of
River Rouge, Michigan, the defendant
had not only been purchasing
Canadian dollar drafts in Detroit and
cashing them in Windsor banks, but
was found buying U.S. currency from
farmers in the Windsor market. The
\$2,214 in American currency discov-

ered in his possession was placed un-
der seizure and the heavy fine imposed.
The farmers who sold the currency
are also liable for prosecution.

A firm of Toronto mine operators
found their high finance operations un-
profitable when one of the owners paid
a total of \$1,000 in fines . . . \$500 for
unlawfully dealing in foreign exchange
and \$500 for unlawfully purchasing
securities from a non-resident without
a permit.

Board officials point out that attempting
to deceive a customs officer is in
itself a serious offence. One person
paid a fine of \$250 for this reason and
another paid \$50 and costs as well as
the \$100 and costs he was fined for at-
tempting to export Canadian currency
without a permit.

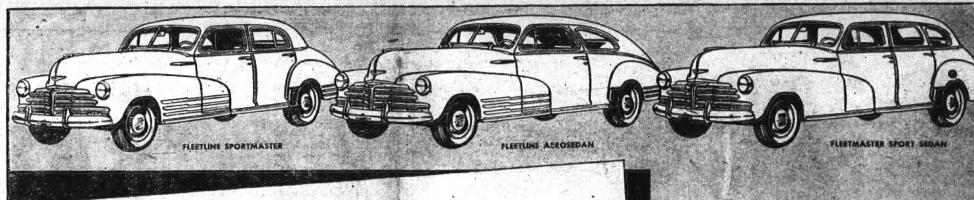

Regulations imposed in an attempt to
reduce Canada's pool of American
dollars require that all travellers leaving
Canada must have the Form H
permit, obtainable at any chartered
bank, if they wish to take out of the
country more than \$10 in American
funds or a total of more than \$25 in
both American and Canadian money.

WHY BE ENVIOUS of
other peoples' coffee when
you can serve Maxwell
House? It's the world's
leading brand and it con-
tains choice Latin-American
coffee for extra flavor.

RULES IN CASE OF FIRES

1. Familiarize yourself with the location of windows and natural escapes.
2. Learn the position of all stairways, particularly the top landing and scuttle to the roof.
3. Keep the doors of rooms shut.
4. Wet a towel, stuff it in the mouth, breathe through it instead of nose, so as not to inhale smoke.
5. NEVER get excited, try to recall means of exit.
6. If room fills with smoke, keep close to floor and crawl along by the walls to the windows.
7. NEVER go to the roof, unless as a last resort and you know there is escape to adjoining buildings.
8. NEVER jump through flames in a building without covering head with blanket or heavy clothing.
9. Open windows from the top.

THE 1948 CHEVROLET

Newer! Smarter! Finer!

HERE'S THE ONE TO SEE! At the first opportunity come and see it! The new
Chevrolet for 1948 brings you new smartness of design, new color harmonies,
new interior luxury — an even greater measure of BIG-CAR QUALITY AT
LOWEST COST. And with all its greater value, Chevrolet's the lowest-price line
in its field . . . the only car in its price class with such Big-Car features as Body by
Fisher, Valve-in-Head Engine, Unitized Knee-Action Ride and Positive-Action
Hydraulic Brakes. No wonder more people drive Chevrolets — and more
people want Chevrolets — than any other make.

CHEVROLET and ONLY Chevrolet IS FIRST!

Curiosity may have killed
the cat, but it has led many
men to do great things.
Because Dr. Lister wonder-
ed why so many patients
died after operations, he dis-
covered that germs cause
infection, and he developed
modern aseptic practices.
For our modern living we
can thank Edison's curiosity
about electricity. Again,
curiosity about what and how
people buy, led Woolworth
to develop a new kind of
store which grew into a
multi-million dollar chain.

You may make some pro-
fitable discoveries by asking
yourself (and others) ques-
tions about everything from
mousetraps to market trends.
Knowledge is Power. The
more you learn, provided you
have the ability to use such
knowledge, increases your
value to your employer and
may start you on a new and
exciting career.

And don't forget to be
curious about people, too. A
study of their tastes, wants,
behaviour and opinions can
be equally rewarding.

Are you curious about what
happens to life insurance
dollars? Savings affected by
Canadians through their life
insurance premiums provide
funds for investments in a
wide variety of public enter-
prises, such as new schools,
highways, power plants, hos-
pitals, homes and farms.

Red Cross Seeks to Cut Canadians Drowning Toll

Toronto, March 10 — The great bulk of drowning casualties in Canada occur in the age group between 10 and 30 years and in areas isolated from crowded bathing beaches. Dr. Harvey Doney, national director of Red Cross Swimming and Water Safety, announced today in a statement pointing out the need for the continuation and expansion of the Red Cross program.

"More than 1,000 people are drowned in Canada each year and the vast majority of these deaths occur because people ignore the common basic rules of safety when in, or around water," said Dr. Doney.

"The Red Cross is prepared to teach Water Safety anywhere in Canada through its widespread organization and distribution of branches. Its system is particularly adapted to teaching the small centres and outlying areas that are not being touched by any other organization."

Nearly 24,000 people have passed Red Cross swimming examinations and another 10,000 have received instruction since the inauguration of the program two years ago. A total of 2,100 instructors have been qualified. The Swimming and Water Safety program is supported through contributions to the national Canadian Red Cross campaign, being held this month with an objective of \$3,000,000.

Woman: "Wha's your cat's name, little boy?"

Boy: "Ben Hur."

Woman: "That's a funny name for a cat. How did you ever happen to pick such a name for it?"

Boy: "Well, we just called him Ben until he had kittens."

SWITCH SOCKS

If you can arrange to have a change of clothing at the office or shop or factory, you can save yourself from a possible threat to health when you get wet. Medical authorities suggest that an extra pair of socks, and a spare pair of shoes, will make possible a switch to dry things if you get wet going to work. Then you won't have to sit around, or carry on your work, in damp things.

Strain is often the absence of trust.

FIRST AID TO THE NATION

THE NEW 1948 CHEVROLET announced recently by General Motors is built in nine models in three series, all of which feature a redesigned radiator grille, new color harmonies in interior upholstery.

According to General Motors, a minimum of time was lost in conversion for the new models in order to produce a maximum number of automobiles to meet the demands of dealers' waiting lists.

Think of the time we spend getting out of things we never should have gotten into.

A COSY HOME is cosier still when you serve Maxwell House Coffees. So delicious it satisfies completely. Expert blending assures you coffee that's famous for smooth, mellow flavor.

Methods For Defense

AT THE PRESENT TIME THE PROSPECTS for establishing permanent world peace could not be said to be encouraging, but neither is there reason to believe that a third World War is inevitable. In no country is there greater hope for lasting peace than in Canada, for although we were not subjected to direct attack, this country has participated actively in two great wars in the last thirty years and has learned the great cost of modern warfare in men and resources. It is now realized, however, that with the present rapid developments in aeronautics, we would be liable to attack in another war, regardless of where hostilities should break out. With this in mind, Canada's armed forces are being trained in advanced methods of defense, although it is earnestly hoped that it will never be necessary to call them into service for this purpose.

Learn Lessons From The Past

In this, as in many other things—an attempt is being made to profit by the lessons of the past. Had Western Europe been well prepared for attack in 1940, the Germans might not have set out on their great program of aggression, or had they started, they might have been successfully turned back. Preparedness against attack by peace-loving nations may indeed be a powerful instrument in discouraging aggressive warfare, and in training an efficient defense force for Canada is in no way giving up hope of a winning defense. Training however, in Canada is also progressing from experience gained in the last war, and is emphasizing the use of combined action of the army, navy and air force in modern warfare. The effectiveness of such co-ordination was proved by the Germans in their "Blitzkrieg" attacks in the early part of the last war, and in the gigantic combined operations used by the Allies in the invasion of the continent.

Officers Now Being Trained

At the National Defense College at Kingston, Ontario, officers are now being given training in inter-service co-operation, as well as in the industrial mobilization which is required for war. They are also receiving instruction in international politics on the underlying political situations which lead to war. As a further step in broadening officers' training, provision has been made to re-open the Royal Military College at Kingston next fall, and to admit cadets from the three armed services. At the Royal Roads Naval College at Victoria, air cadets have already been enrolled and next September army cadets will also be admitted there. In this way, reserve officers will be trained in the very important matter of co-operation among the three armed services. While it is not pleasant to contemplate the possibility of another war, we should nevertheless appreciate the fact that thought is being given here to the need for preparedness in these uncertain times.

Not Just Exactly What Furrier Meant

WASHINGTON.—The radio announcer, finishing his commercial with a light touch, announced that the dried beet root could be had "for 49¢ a potato."

So a listener, Cecil Linkback, rushed to a market, bought two big sacks of spuds and delivered them to the furrier who paid for the radio plug.

"It's not potatoes", he said. "Where's the coat?"

The furrier explained the price was in dollars, not potatoes. No deal.

The story got into the papers. The furrier got a lot of letters and phone calls from people who thought Linkback ought to get the coat.

He got it and promptly presented it to his wife. The furrier wondering what to do with 49¢ potatoes.

SHOOTS BALD EAGLE

NATIONAL, B.C.—A 12½-pound bald eagle, making off with a rooster in its beak, was shot near here by Walter Sandford. It had a 7½-foot wingspread.

The distress signal SOS was first adopted officially for international radio use in 1906.

Only 1 Cup of Meat IN THIS

Delicious Chicken Puff

1/4 cup flour 1 cup chicken, cut into cubes
2 teaspoons Magic Baking Powder 2 teaspoons sliced onion
1/4 teaspoon salt 1/2 cup grated raw carrots
2 eggs 2 tablespoons melted butter
1 cup milk 1 1/2 cups chicken gravy

Sift together flour, baking powder and salt; add beaten egg and milk. Add chicken, onion, grated carrots and melted fat and mix well. Fold into hot gravy. Serve in a greased baking dish in hot oven at 425°F. for about 25 minutes. Serve with hot chicken gravy. 6 servings.

YOU WOMEN WHO SUFFER HOT FLASHES then FEEL CHILLY-

Here's Good News!

Are you between the ages of 35 and 50 and going through that trying fusillade of hot flashes? Is this peculiar to women? Does this make you suffer from hot flashes, feel clammy, and then feel chilly? Then no try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms.

Many wise "middle-age" women have found Lydia E. Pinkham's Compound especially helpful in combating this distress.

Lydia E. Pinkham's Compound contains no harsh, irritating, forming drugs.

Lydia E. Pinkham's VEGETABLE COMPOUND

It helps nature (you know what we mean)! This great medicine also relieves you from aches and a stomach-ache tonic effect.

NOTE: If you may prefer LYDIA E. PINKHAM'S TABLETS

May Develop Perennial Wheat In 10-20 Years

University Of Saskatchewan Scientists Say Plenty Of Time Needed To Cross Wheat And Grass Plants

SASKATOON.—University of Saskatchewan scientists estimate 10 to 20 years may be needed for completion of experiments that hold staggering possibilities for western agriculture—development of perennial wheat.

Cautious researchers will make few predictions except that plenty of time and a fair amount of luck are involved in crossing thousands of wheat and grass plants to obtain a spring wheat that will come up every spring without seeding.

But many agriculturists say perennial wheat, if developed, might be a shot in the arm for western farming.

A perennial wheat would mean a tremendous annual saving in seed and labor costs. The perennial root stands are characteristic of perennial plants which would aid soil and moisture conservation—vital on the Prairies with uncertain rains and persistent winds that sweep away precious top soil.

The straw probably would have a higher nutritional value for the soil than would straw from annual wheat.

Achievements to date are growing in a greenhouse plot comprising less than 50 square feet. From crosses of wheat with a hardy native grass made in 1938 Professor L. H. Shebeski had a few prize perennial plants with hardy wheat heads but a stalk that stays green even after the head has ripened.

But the plants are too tender for rigorous western climates and before the strain is ready for the farm, resistance to cold, drought, insects and disease must be bred into successive generations.

With only the best specimens of each generation suitable for further breeding, Professor Shebeski said: "It is very improbable that a perennial wheat of economic importance will be produced in the next decade or two."

The work started in Canada in 1938 was interrupted by war in 1941 and resumed in 1945. Similar experiments began in Russia in 1928.

The furrier got it and promptly presented it to his wife. The furrier wondering what to do with 49¢ potatoes.

He got it and promptly presented it to his wife. The furrier wondering what to do with 49¢ potatoes.

The prospective father-in-law was interviewing his daughter's young man.

"And what are your prospects?" he inquired.

"I've pretty good! Unless your daughter's misled me," was the reply.

"I see you advertised your saxophone for sale," said the friend.

"Yes," he sighed, "I saw my neighbor in the hardware store yesterday buying a gun."

Recent war bride (to magistrate): "I can't stand it any longer. My husband actually swore at me. And I was leading to drive just to get him to stop."

Magistrate: "What did he say?"

"He sat there in the ditch and said, 'Holy cat, woman, didn't you see that truck?'

"How many fish was it that you said you caught Saturday, Ernest?"

"There were six of them, dear. Don't you remember?"

"Yes, that was what I thought you said, but that fish market has made a mistake again. They've charged you for eight."

Prisoner: "There goes my hat. Shall I run after it?"

P. C. Casey: "And not come back! No. You stay here and I'll run after that hat!"

"So your wife takes in washing?" the judge, asked a man who was up for vagrancy. "What do you do?"

"Well, I judge," explained the accused, "I take in the washin', the old woman does the washin'. I takes the washin' back, the old woman collects the money and I talks her out of most of it."

Here's Speedy Relief for Tender, Aching, Burning Feet

Your feet may be swollen and inflamed that you can't stand on them. Step. Your shoes may be tight and cause cutting and blisters. You may be suffering with the pain and torture; you'd give anything to have relief.

World News In Pictures

FIRE DESTROYS VETERAN'S HOME—Two years' work by a veteran, Carl Burns, building his own home were wiped out by fire at Oak Ridges, Ont., when the house was destroyed. Marie Burns, 2½, and her dog look at the ruins.

CROWNED QUEEN OF MCGILL UNIVERSITY—Miss Sue Bereshoff, senior arts student at McGill University, and resident of Oak Ridges, Ont., was crowned Queen of the McGill Winter Carnival. She is the first girl from Ontario to win the honor, and "If you think I'm pretty, you should see my sisters back in Toronto," she told the crowd, who shouted for a speech.

SAFECRACKER KILLED FAITHFUL SEEING-EYE DOG—Two dogs kept the office at Toronto at night to guard it. They were alive and well when fed at 10 a.m. When they did not greet John Berezanski when he arrived in the morning he knew something was wrong. Theives had entered with \$300. Berezanski is seen with the slain dog on spot where dog's body was found. "Laddie was almost human," said blind John Berezanski, declaring he wouldn't have taken \$1,000,000 for faithful animal.

EATS BREAD-AND-MILK DIET TO PROTEST H.C.L.—Sitting down to a supper of bread and milk for the fourth consecutive day in protest against the high cost of living, Mrs. Sue Bereshoff, 24, of Galt, Ont., looks at her smiling husband with a diet on a fuller menu, but she remains resolved to stick to her diet. Mrs. Bereshoff went on a daily diet of five slices of bread and two glasses of milk recently when she found that the combined weekly earnings of herself and her husband, \$80, were barely enough for food and rent. She is urging others to follow her example feeling that similar action by one million women would make a deep impression on the country's grocers.

WORLD DIGNITARIES PRAISE HONOR ROLL—The album of honor held here by Beth Norman is made up of the names and pictures of thousands of Brantford and Brant county, Ont., service men and women. Copies of the album were sent to the King, Eleanor Roosevelt, Field Marshal Montgomery, President Truman, Gen. Marshall, Winston Churchill, Gen. Marshall and Lt. Gen. Ian MacKenzie, former minister of veterans' affairs, and all wrote back paying tribute to the idea.

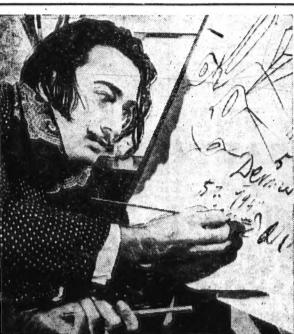

DUCK RIVER FLOODS TENNESSEE TOWN—One hundred and fifty families were made homeless when the Duck river overflowed its banks into low portions of the town of Shelbyville, Tenn. Many other homes on high ground were flooded by two to five feet of water from torrential three-day rains. Five hundred families in a two-hundred residential section along the river, and the Nashville highway, the only passable road.

NO PRIZE OFFERED TO FIGHT ATOM—Charles F. Kettering, former head of General Motors research, who is residing in Miami Beach, Fla., said he was told not to offer a \$10,000 prize to the scientist developing the most plan of defense against the atomic bomb. Kettering did not say who told him to withdraw the offer, but he said the plan was turned down "because it would cause the bomb to lose its diplomatic value."

TWO WAR CRIMINALS SENTENCED TO LIFE—Hitler's commander in World War II, Wilhelm List, former German field marshal, (left, front), found guilty of war crimes in the Balkans, was sentenced to life imprisonment by the Nuremberg tribunal. Lieut.-Gen. W. Kuntze, (right), also was sentenced to life.

DALI TELLS MODERN ARTISTS THEY MUST LEARN TRADITION—Modern art, about to be attacked from half a dozen sources, took an unexpected upturn recently from its high priest, Salvador Dali of New York. Senior Dali, at work above, is heart and soul with the art modernists. But he wished to have them know how to paint. "I am not against art of being often 'frivolous in content and lazy in execution,'" Dali, in benign mood, even had it in his heart to understand—although he does not sympathize with it—appreciate the art action of the so-called Institute of Modern Art, which changed its name to the Institute of Contemporary Art in protest against modern art trends.

YEMEN KING SLAIN—The Arab League announced that Abdallah ibn Ahmad el Wazir had been proclaimed king of the Arabian kingdom of Yemen, on the Red Sea, to succeed King Yahya. Abd el Hafiz, Abd el Hafiz, secretary-general of the Arab League, said a mission will leave Cairo for Yemen soon to investigate reports that King Yahya and three of his brothers had been killed in a revolution. Death of the aged warrior king, one of the most absolute monarchs in the world, has been reported. Crown Prince Abd al-Aziz, son of Prince Saif-al-Islam Abd al-Aziz, sixth son of the dead ruler, was not known.

"INCIDENT" IN "NO-MAN'S-LAND"—Between Jewish Tel Aviv and Arab Jaffa lies the most active no-man's-land in Palestine, which is surrounded by a series of British tanks and searchlights. British and Arab patrols are suspended and are lined up before a disengaged building. Most streets in the no-man's-land are a mass of rubble.

The oil you use in your tractor is your insurance against breakdowns, delays and costly repair bills. Using the right grade of the right oil will definitely keep down your cost per acre.

That is why we recommend MARVELUBE Motor Oil. It is recognized as Canada's leading motor oil—used in more farm machines and motor cars than any other oil you can buy.

Why take a chance on inferior quality when you can use the leader at no extra cost? Fill up with tough, long-lasting MARVELUBE and your engine will stay clean longer and free from damaging deposits. You'll save money in the long run by using MARVELUBE, Canada's favorite motor oil.

Canadian Pacific
WORLD'S GREATEST TRAVEL SYSTEMNOTICE TO CREDITORS
AND CLAIMANTS

In the Estate of WALTER HRAN-
KOWSKI, late of Hillcrest, Alberta,
Miner, Deceased.

NOTICE is hereby given that all persons having claims upon the Estate of the above named WALTER HRAN- KOWSKI who died on the 14th February, 1948, are required to file with the undersigned by 10th April, 1948, full and clearly verified of their claims and of any security held by them, and that after that date the Administrator will distribute the assets of the Deceased among the parties entitled thereto having regard only to the claims so filed or which have been brought to his knowledge.

DATED AT Land Titles Bldg., Calgary, Alberta, on the 14th April, 1948.

D. L. SLOAN,
Public Administrator for the
Judicial District of Macleod.

In one day of war, Canada, Britain and the United States spent over \$112,000,000. This money would give five million children one good meal a day for a whole year. Give Generously to the Canadian Appeal for Children.

Special fares for the Easter Holiday period on Canadian Pacific Railway Lines are announced by H. Cronk, agents, Blairmore, Alta. The low fares will be available from Thursday, March 25th, to 2 p.m. Monday, March 29, and will be good to return leaving destination up to midnight of Tuesday, March 30th. On branch lines where there is no train service on March 30th, tickets will be valid to return on first available train thereafter.

The low rate of single fare and one third for the round trip will be good between all stations in Canada and in all classes of accommodation.

There is no situation which could be "a lot worse" but which could be a lot better.

That's Where EATON'S
Tells You About the
D.A. System

It saves you the trouble of sending cheques and money orders and saves the pennies you spend to buy them!

It saves you time and quick service!

Your credit balance earns interest while on deposit.

No wonder customers say "It's like money in the bank to use on EATON D.A.!"

For full explanation see the Catalogue for Spring and Summer, 1948, page 497.

EATON'S

Unheated Church

Church Magazine, (Coddington,
England)

By coming to church, we at least help to keep the place warm, and if we join heartily in singing as we lift up our souls to God in praise and thanksgiving, we will be able to keep ourselves warm on the coldest day.

If needs be, bring a rug for use during the sermon.

The RCAF offers everything
a young man wants!

You'll learn about the operation of modern aircraft and technical equipment. You'll make friends . . . master a valuable trade under the guidance of experts. And while you're still young enough to enjoy it, you'll be able to retire on pension for the rest of your life.

You need no previous experience or special training. And you draw full pay from the start. You'll have a chance to see Canada . . . perhaps take part in thrilling and important exercises such as northern transport flights or summer photographic surveys.

It's a job in which you can take pleasure, and pride.
